

Experience better care with Trilogy Care

At Trilogy Care, we know how important it is to get the most value and support from your Home Care Package now — and from your Support at Home services in future. That's why we deliver unmatched value, choice and flexibility for every client.

Value

You choose your services and set the rate with your care worker — giving you more control, more care hours, and better value from your budget.

Choice

Self-management lets you connect with the support services you need!

Choose the care workers you want, at the times that suit you.

Flexibility

Stay flexible with Trilogy Care.

Manage your budget your way, with the freedom to tailor services to suit your unique care needs.

Eligibility is assessed by the Aged Care Assessment Team (ACAT). If approved, you are allocated funding according to your care needs, helping you continue living at home. There are four levels of funding available under the Home Care Package program.

HOME CARE PACKAGE FUNDING LEVELS

| Level 1 | Level 2 | Level 3 | Level 4 |
|----------------------------|----------------------------|----------------------------|----------------------------|
| basic care needs | low care needs | intermediate care needs | high care needs |
| \$10,931* a year | \$19,224* a year | \$41,847* a year | \$63,440* a year |

*The above home care subsidy amounts are correct as of July 2025.

HOME CARE PACKAGE FUNDING AND BUDGET

The Home Care Package (HCP) Program provides coordinated care and services to older Australians who have been assessed as having age-related care needs.

Stay at home and in charge with Trilogy Care

Trilogy Care supports you to live well at home for longer, by helping you self-manage the Home Care Package you want and need.

We offer personalised support to design your tailored care plan and partner with you to maximise your care budget. All Trilogy Care recipients have a dedicated care partner, access to our team of clinical nurses, and the backing of our finance and compliance teams to support you to manage your Home Care Package and help you live life your way, at home.

WHAT IS SELF-MANAGEMENT?

Self-management is a great way to keep control over how your care budget is spent. It doesn't mean you have to go it alone but rather offers the flexibility to get help with as much or as little of the process as you choose. That might include support to:

- Design your care plan and budget
- Gain more control over how your funds are spent
- Choose the care workers and support services you want and when
- Find services at rates acceptable to you
- Ensure your services are paid on time with our daily payment runs
- Increase your care hours with lower hourly rates

WHY SELF-MANAGE?

One of the main reasons people choose to self-manage is because it gives you absolute control over who provides your care and services. You can ensure you're surrounded by the best people and receive exactly the service you want, how and when you need it. Self-management also allows for rate negotiation directly with service providers so you can get the most out of your budget.

The Trilogy Care difference

Take full control over your Home Care Package with the choice of two self-management tiers at Trilogy Care:

SELF MANAGED

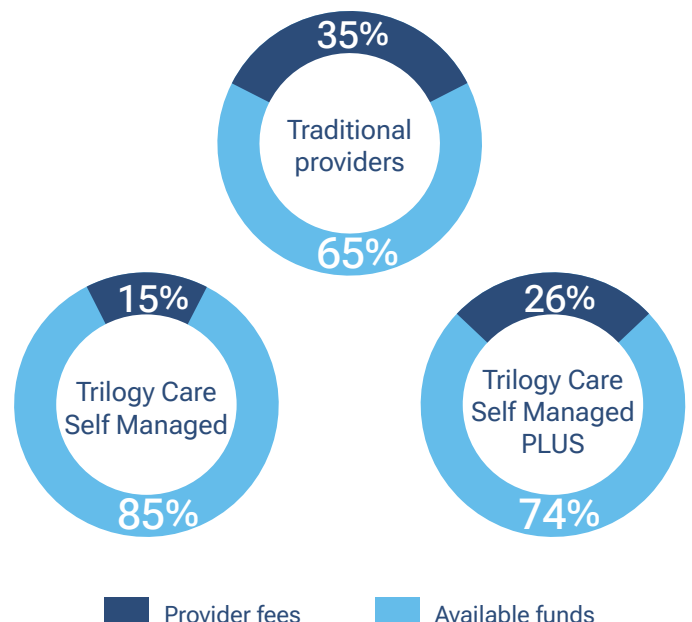

Our Self Managed tier is ideal for people who want to control their Home Care Package themselves or with the support of a family member.

SELF MANAGED PLUS

Ideal for individuals who want the choice and flexibility of self-management but also benefit from the support of a Care Coordinator, who will engage services as directed by you!

TRANSPARENT PRICING

Self Managed and Self Managed PLUS are both charged under a transparent fixed fee structure – 15% for Self Managed and 26% for Self Managed PLUS – with no setup fees, no daily fees, and no exit fees. This means more of your care budget is available for care hours.
